WALL PAPER SAMPLES

A BOOK OF BEAUTIFUL DECORATING POSSIBILITIES

MONTGOMERY WARD & CO.

NEW YORK. CHICAGO. KANSAS CITY. FORT WORTH, TEXAS. PORTLAND ORE.

How to Ascertain the Quantity of Paper and Border for Your Rooms

Measure the distance around each room. Then measure the height from floor to ceiling. Then refer to the following Table which will indicate the number of Double Rolls of Sidewalls, Yards of Border and Double Rolls of Ceiling required.

Do Not Deduct for Windows and Doors as We Have Made Allowances in Our Table

We offer in this book one of the largest and most comprehensive assortment of wall covering, in tony patterns and snappy colors, ever shown under one cover. Each number is the best and most artistic of its character that can be found in the leading manufacturer's offerings. We have not spared time or money in making this the finest selection of wall papers we ever offered. We call special attention to our large variety of **cut-out borders**, the kind that make the most pleasing, inexpensive, up-to-date decoration of the times. We have them appropriate for any room. Our prices on the entire line are the lowest that could be named, when quality and artistic merit are considered. Always remember that if you order wall paper from us, and it is not satisfactory, or you do not think you have saved at least 25% on your purchase, return it to us and we will refund the purchase price and transportation charges.

All of our Wall Papers are put up in double rolls 16 yards long and 18 inches wide containing about 70 square feet. For large Halls or Churches obtain the square feet of walls' surface and divide by 70 to get the number of double rolls wanted.

USE APPROPRIATE COLORS, ETC.

In selecting the colors for different rooms do not use red for a room with a southern exposure, particularly if there are numerous windows in it. Red would make the room unbearable in the summer time. Green, brown, olive, blue, or light shades should be used. Rooms with a northern exposure should be papered with bright, warm colors, such as red, pink or yellow, which give a warm, cheerful appearance in winter.

Also consider the size of the room and the height of ceiling. Small figures are more suitable for small rooms. However, paper with a large figure that is not conspicuous will look well in a small space. A stripe paper makes the room look higher and a drop ceiling has the reverse effect.

READ THIS BEFORE ORDERING BORDER

Regular wall paper border is printed on paper 19½ inches wide. There is nothing narrower printed; therefore in manufacturing a 9-inch border, two borders are printed on a width and a 16-yard roll of paper 19½ inches wide contains actually 32 yards of 9-inch border. When a customer orders 16 yards of 9-inch border we send 8 yards of regular width paper, which contains 16 full yards of 9-inch border. Cut the paper along the middle and you will have two pieces each 8 yards in length. All prices quoted on 9-inch borders are for single yards of one-half the width of the paper.

PICTURES THAT EXPLAIN IT ALL

Eight Illustrations that Show the Steps to be Taken to Insure a First-Class Wall-Papering Job

Figure 1

The room is prepared. Boxes, boards, a ladder, a paste brush, a pair of scissors, a bed caster, a whisk broom, paste and the paper are the implements you need.

Figure 2

Pasting the paper. Paste half a strip and then fold the end over to the middle. The paste should be of such a consistency such that it will just drop off the brush.

Figure 3

Pasting the paper. Paste the other half of the paper and fold that end over to the middle. Pasting in this way prevents spotting the paper, with your hands or tools.

Figure 4

Cut off the selvedge edge. The two ends are folded to the middle. Trim paper after paste is applied—never before. Your edge is sure to be even when cut this way.

Figure 5

Papering the ceiling. Draw a line on ceiling 16 in. from wall. Start paper at this line as illustrated. Let paper hang over roll of paper held in left hand.

Figure 6

Papering the walls. If possible start with a door at your left and work to the right. Drop perpendicular line from ceiling and use it as a guide.

Figure 7

Smoothing the seams. Wait for a short time after papering to do this. Then use a bed caster or roller for this purpose. This is an important step you must not neglect.

Figure 8

Hanging the border. Work from the right to the left. Paste in the same manner you pasted the wall and ceiling paper. Be sure the selvedge edge is trimmed off.

How to Order

Select the paper you want from the samples in this book. Always order by number. Don't send in the sample. The number and quantity are all the information we need. Be sure to order enough. At our prices a large double roll costs but a few cents so don't take any chances of running short.

How to Prepare Room

First move out all the light furniture and rugs, cover up other things with some old cloth or newspaper. Then tear off any old paper that is loose and fill up cracks and nail holes with plaster paris. Bad holes must be plastered.

The Tools You Need

Have two or three planed, smooth boards at least 6 ft. in length for a pasting table and one or two planks, nearly as long as the room is wide, to stand on. Then you need a pail for paste—a paste brush at least 6 inches in width, a pair of shears—a smoothing brush (a whisk broom will do)—a seam roller (you can use a bed caster for this) and five or six horses or boxes. Be sure and have all the tools together before you start.

How to Make Paste

This quantity is enough for one good sized room, ceiling, side walls and border.

Take three pints of rye or wheat flour, rub smooth in two quarts of cold water, add eight quarts of boiling water and let boil slowly until thoroughly cooked, stirring constantly ten minutes. When cold stir in two tablespoonfuls of powdered alum. Thin with cold water till it will barely run off the brush.

How to Paste Paper

Lay a strip of paper on the table printed side down and apply the paste. Begin at the middle and work one way. When you reach the end of the strip fold the pasted end over to the center. Be sure that the edges are even. Then paste and fold the other end in the same manner.

How to Trim Paper

Trim the paper after it is pasted, never before. Cut through both thicknesses of the pasted paper with your long shears, thus taking off one selvedge edge from each strip. Trim right up to the line represented by the printed pattern. Don't trim off both edges.

How to Match Paper

If you cut and trim your paper correctly the strips will match perfectly, but you want to be sure of this before you smooth the paper on the wall.

How to Measure Paper

Carefully measure the length of your ceiling and the height of your wall. Then mark the distance on your pasting table and cut the paper according to these measurements. Always allow two or three inches extra on ceiling and wall paper for lapping on to the border.

How to Hang the Ceiling Paper

Draw a line across the ceiling 16 inches out from the wall. Start the untrimmed edge of your first strip at this line and let the trimmed edge extend about two inches down the side wall. Always start at one side of the room where the ceiling meets the wall—keep one edge right on the line—smooth the paper as you go along and hold the balance of the paper out in front of you, hanging it over a roll of paper. Use the first strip as a guide for the second and so on.

How to Hang the Side Walls

Begin, if possible, with a door at your left and work to the right. Ascertain with a plumb line whether your door is vertical. If so, use it as a guide for starting. If not, draw a vertical line as near the door as possible and start from this line.

Place your planks on horses or boxes about a foot from the wall you are to work on. Take your pasted strip of paper, unfold it and hold it by the upper corners with pasted side toward the wall. Bring the paper against the wall slowly to be sure that it hangs straight. Then smooth it with the brush and mark it with back of your shears where it hangs over the baseboard. Cut the paper where you have marked it and push it into the crevice. After the paste has set for a few minutes, smooth the seams with your roller.

How to Hang the Border

Be sure, before you start on your border, that the ceiling line is true. If it is not true draw a straight line with the lowest point of your ceiling and run your border along this. Start in a corner, unfold the right end of your strip and work around to the left matching patterns carefully.

Suggestions

If you are to paper several rooms and are new at the work take the least important room first. Then when you come to the more difficult rooms (tho living room and the parlor) you will have practice and the work will be easy.

Our wall papers are all priced in double rolls, each containing 70 square feet and are 18 inches wide after the selvedge is trimmed off, and full 16 yards long. Our borders are either 9 or 18 inches wide, and it is plainly stated on the back of each sample which width border comes with that pattern.

We carry a full line of room mouldings, picture mouldings, chair and plate rails, which are found at lowest prices in this sample book.

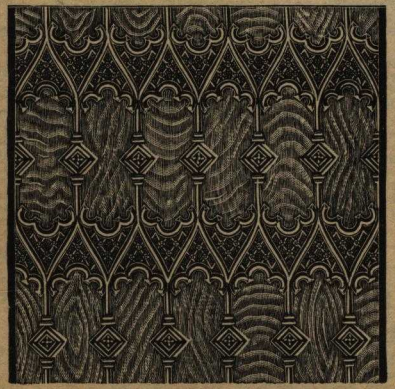
LINCRUSTA RELIEF

Lincrusta Relief is acknowledged by the best decorators to be not only the most perfect goods of this grade ever shown in this country, but the most practicable. It is an improvement on Lincrusta Walton that has always been sold at prices that made it too expensive for the ordinary purchaser. These goods we are now offering at prices that any one can afford if they wish a strictly first class, up-to-date, sanitary wall covering that will last forever, as it can be recolored or painted any time to suit the taste or prevailing style. It is especially adapted for dining rooms, halls, vestibules, dados, or the lower wall in any room. Small samples will be sent upon request.

SUGGESTIONS FOR THE HANDLING AND HANGING OF LINCRUSTA

Before unrolling or trimming in cold weather, it should be placed in a warm room which will tend to soften up the material. Utmost care should be taken in trimming the edges straight. Cut the material to the design margin with a sharp knife, holding the knife at a slight angle so as to undercut the goods and insure a good joint. A heavy paste mixed with about one quarter glue should be used warm (in fact should be used hot in cold weather) and be sufficiently and evenly worked in. If the Lincrusta relief should become soiled in handling use a little soap and water, or spirts of turpentine applied with a sponge, which will quickly remove all stains.



2P6005 **Lincrusta Relief in a modern Empire silk effect** that is suitable for either entire rooms or lower third and has to be seen to appreciate its beauty. It is made in three colors that are all good, a rich red, dark green or buff. Width, 20 in. Weight, per yard, 17 oz. Mention the color wanted.

Unusual style and dignity are shown in this inexpensive paper. A conventional design in old rose breaks the monotony of the stripe effect, and lends a soft tone to the semi-chambray background. The colors are soft and restful, and are quite appropriate for dining rooms, living rooms, or halls. Exceptionally good taste is displayed in the 9-inch border which is divided into sections, giving it character and tone, and making it a splendid choice as well as a rare value.

Women who are dainty and neat exercise much thoughtfulness and care about the furnishings of their home. The Wall Paper is always the first consideration, as it is the background for the other furnishings. This paper cannot fail to please the most discriminating, as it is one of the newest ideas in design, coloring, and tone. Tiny rosebuds entwine themselves around the medallion and fall gracefully, giving that little touch of daintiness which is so appreciated. The brown stripe blends well with the mauve background in semi-chambray effect.

Artistic style is shown in the 9-inch border, which is caught up with little bunches of French roses. A point d'esprit effect in white renders it especially attractive for the boudoir, guest room, or small parlor. Easily worth 12c per double roll. For the sleeping room or guest room, this design is especially inviting. It is cool and restful, and will tone beautifully with soft curtains and delicate pale blue hangings. The color scheme will be found very unique, if one displays a little taste. The pale blue stripe has a little touch of white peeping through, which offers pretty contrast to the fancy ribbon stripe.

Individuality is achieved in the 9-inch border, which blends from a deep clouded effect into a faint ceiling, closely resembling air-brushed work. Lavender wild flowers trailing along the edge and in the green empire wreath produce one of the best effects shown. At our price you can afford to beautify your sleeping apartment, and make it attractive and refined. This paper will cost you elsewhere 12c per double roll. Grecian art is beautifully portrayed in this design, which is especially adapted for the dining-room. In order to make our dining-rooms inviting they should be cheerful and hospitable. This pattern has that grace and character which makes all who cross the threshold readily respond to its charm. Your dining-room furniture will show to splendid advantage against this background. A perfect color scheme can be worked out by having your curtains echo the dominant color note in the design, thereby giving the room the little personal touches which are much appreciated by good judges.

The beautiful lines in the border, as well as the coloring, produce a magic influence upon the atmosphere and has the effect of increasing the size of your dining-room. A rare and unusual pattern at a nominal cost. Well worth 12c.

A sleeping room covered with this design gives the impression of restfulness and quietude, and breathes an air of coolness that is refreshing. A sprinkle of black over white, with an apple green stripe broken by two rosebuds is artistic and dainty. The effect is very "Frenchy" and makes a charming wall treatment.

Daintiness is achieved in the simple but artistic lines in the 9 inch border. A garland of tiny flowers caught up in loops and tied with rosebuds wins immediate favor.

Rosebuds at the top give it added beauty. Bedrooms treated with this paper cannot fail to please the most particular as it suggests soft, dainty, fine curtains pretty bed sets, and pure white dresser scarfs. For an inexpensive paper this is considered very good. The border is hung in the usual way or easily cut as illustrated.

Pastel shades in Nile green, with soft shades of old rose blending into a faint white, make this pattern a pronounced success. The Columns are broken by a little floral design which seems to be happily chosen. Hair-line stripes in brown, between the columns, bring out the desired effect. Festoons of apple blossoms shown on the border and hung on a garland of wild flowers, are features of one of the prettiest selections shown this season. When Robert Louis Stevenson finished his "Morning Prayer" with the beautiful petition to be granted the gift of sleep at the close of day, this great writer must have had in mind a sleeping room whose walls were covered with a type of paper resembling this design. Tiny rosebuds interspersed with larger rosebuds stand out in the ribbon effect stripe and give it distinction.

One of the most popular and admired dining room papers shown this season. A bunch of ripe, luscious grapes in their natural color makes this a tempting choice. A warm tan color forms the background, while a cloth overprint in black gives it a softer finish. The shadow of grape vines reflects the sun's rays, and makes it doubly attractive.

This paper may be used for entire walls or for the upper third above the plate rail, using an oatmeal paper or burlap for the lower part of the wall. The ceiling paper is quite attractive.

The 9 inch border may be hung in the usual way, or cut out, as shown in illustration. Living rooms covered with this paper are bound to be attractive and cheerful.

The hostess may pride herself on her snowy white linen, beautiful silver and rare china, but if the dining-room lacks that cozy, hospitable, inviting appearance which this design gives, the harmony effect is broken.

The mistress of every home should seek to make the dining room a place where the worries and cares of the day are forgotten. This paper makes a charming dining-room, and at a very small cost. Try it and be convinced.

Refinement and good judgment are happily blended in this simple but artistic pattern.

A beautiful mauve shade forms the background, while an ivory white lattice work covers the surface. The dignified pillars of varnished gold, with that little touch of yellow buttercups in miniature effect, makes it a delightful and captivating choice. Darker toned stripes in shadow effect, with a dash of green and gold peeping through, give it charming individuality.

Women of taste will see the possibilities of a pretty color scheme in this paper. It tones well with ivory white or mauve woodwork, soft, clinging curtains, and either a tan or soft, green rug.

A little medallion in the 9-inch border divides it into sections. A festooning in varnished gold, caught up in the center, gives it a graceful, charming finish.

A unique figure in the ceiling makes it a pleasing and profitable choice.

Recommended especially for sleeping rooms, guest rooms, or small parlors.

Here is a little pattern I am very partial to, and have been saving it for the girls who love dainty surroundings. A perfect color scheme can be worked out beautifully by having soft, white curtains, with a valance of old rose silk to match. A plain rug, either in old rose or a soft tan, will be found very charming. The two-toned stripes in this paper, as well as the dainty lace effect between, are simply exquisite. Then that little bunch of French rosebuds in the stripe alternates prettily with the beading, and shows a tiny bud running through. A little gold effect is also noticeable.

If you want to see perfection, wait until you see the pretty border. It will eclipse anything your girl friends have in their homes. It is individual and very artistic. The ceiling, too, is quite pretty. For a sleeping room or guest room you will find nothing more inviting. Place your order at once. Sold elsewhere at 25c.

Did you ever stand in front of a home that was beautifully lighted and elegantly furnished? What was it that impressed you most? Was it the costly bric-a-brac or the rare mahogany furniture? No, it was the paper on the wall. It formed a real color symphony, a perfect decorative picture, in your mind. For the Summer bungalow, private apartment, or humble cottage, we can suggest nothing in household art that can compare with this in quality, design or colorings. The design is simple and yet so tasty. A tulip in bronze green and rich old gold, with a background of mauve and darker tans, acquires a preciousness that is truly fascinating. Then the gold beaded frame serves as a stripe, and lends style and dignity.

The rich bronzes in green and gold, in the 9-inch border as well as ceiling, produce a soft, mellow glow which gives it increased value. It will be to your interest to select this paper, as you cannot afford to dabble with cheap papers and spoil the effect of your home. This paper has character and quality to recommend it. For a southern exposure nothing could be cooler or more restful than this particular pattern. As you know, green absorbs a large amount of light. It will be found an excellent choice for parlor, living room, library, hall, or club room. A unique design in deep red and old gold shimmers out like a star, while a black hair line stripe gives it distinction.

The 9-inch border blends from a deep green into a lighter ceiling. A little touch of red gives it just enough snap to make it a pretty choice. This paper will harmonize with the wood work and other furnishings.

The best is always the cheapest. When you paper your parlor, you want to feel that you are getting a paper that is correct in quality, coloring and design, a paper that will enhance the beauty of your home and give complete satisfaction. This paper ranks high in artistic merit and promises to be a choice number. The gold blends well with the warm tans, and forms a pleasing background. The Chinese white in the stripe brings out the light and dark shades and gives it the requisite touch. The crowning success of the pattern is largely due to the pretty pink roses, which shimmer out from their gold setting, giving them that characteristic rare grace of charm and beauty.

No words of mine can describe the beauty of the 18-inch border. It will have to be seen in order to be appreciated. This illustration does not do it justice. It is an air brushed effect and is considered a work of art. Retailers would ask at least 25c per double roll for it. The border can be hung in the usual way or cut out, as illustrated.

For the country club house, the summer bungalow, the restful lounging room, or dignified library, this paper will be especially suited. It is rich, elegant, and very distinctive. It has that different air about it that demands your attention. The golden brown, bronze green, and yellow gold in the conventional design, stand out against the dark brown stripe, giving it character and strength.

Plain rugs and soft hangings, as well as covered lights and dark furniture, will be found restful and very artistic.

The color glow in the 18-inch border blends from a bronze green into a delicate faint ceiling. The design is very odd, and shows wonderful perception of coloring.

Business men will appreciate the excellent qualities of this paper and choose it for their dens and offices.

In homes where quality counts, where high class art is recognized and appreciated, this exclusive design will find enthusiastic admirers. It is one of the latest and most conservative patterns shown in a silk moire effect. No plain surface can surpass the silken richness of this design. The weave is so perfect you can almost feel its silken softness. Its quiet elegance of design and color tone demands the attention of every housewife whose thoughts are wrapped up in her home. The light and dark shades of warm tans and wood browns contrast prettily with the bronze greens and rich golds, making it a paper of superior worth. Distinctiveness and rare individuality are admirably shown in the 18-inch border, which makes it a big prize winner. For the parlor, reception hall, living room, library or club room, nothing will be more satisfactory or give more universal satisfaction than this number. There is a delicacy and a charm centered round this paper that makes it an artistic choice. A pretty French gray paper forms the background, while a delicate green basket containing some very choice pink roses is considered very tasty. The silver tones of mica and varnished gold blend beautifully with the pink buds and green leaves.

The pretty pink bridal roses shown in the border, together with that drapery of rich gold lace is very graceful. The green leaves give it the requisite touch of color. The ceiling is likewise very pleasing. For the bridal chamber, the small parlor, guest room or boudoir, nothing you can select will equal this paper in design, coloring or quality. With white or light gray woodwork, this paper will make one of the daintiest, most captivating wall treatments ever produced. Well worth 25c per double roll. Interior decoration is of vital interest to every home maker. Everyone interested in beautifying their home should study the principles of proportion, balance, harmony and repose. The design in this paper, as well as the color tone, will appeal to many. A beautiful mauve shade forms the background, while a tiny figure appears here and there over the surface. A gold stripe in the center between two stripes broken by a medallion, whose colors reflect velvet tones of pretty green, rich reds and gold. Paper like this is an inspiration to make the home cozy and cheerful.

A hand brushed air effect is shown in the 9 inch border. The colors blend from a deep hue into a dainty figured ceiling. The conventional design in the border, as well as sidewall, is edged in varnished gold, which gives it a rich appearance. We believe this number will prove to be a big seller, as this shade is always considered a serviceable choice.

A masterpiece of art, beautifully styled the "King of Wall Decoration." Originality of design, and harmony of coloring, class it as a paper of superior worth and merit. It is a covering of unparalleled distinction and quality that stands alone. A wide gold band stripe, broken by a unique design, shows the work of a "master mind." The perfect blending of varnished gold, bronze green, rich red, and pretty brown is worthy of your consideration. A gold beading serves to give it the requisite touch. Two dainty stripes are shown, one on either side, lending it dignity and repose.

The architectural lines in the classical 18-inch cut-out border resembles the hand-work of a sculptor. The graceful lines and curves appear as if chiseled out of marble.

This border has what is known as a base—that is, a small decoration drawn at the bottom, which is cut out and pasted around the baseboard of the rooms. This band measures 3½ inches, and gives a finishing touch that is only found in papers of worth and character.

You can form no definite idea of the beauty that is shown in this border. The picture does not do it justice. It will have to be seen on your walls, in order to be appreciated.

A first-class treatment for the living room, library, parlor, or reception hall. The border is cut out ready to hang.

Every man or woman interested in making the "Home Beautiful," the "Home Cheerful," the "Home Cosy," or "Home Artistic" will see the absolute necessity of selecting this number. The colors are thoughtfully conceived and beautifully executed. A varnished gold forms the outside stripe. In the center of the stripe, tiny buds entwine themselves and finally blossom into a beautiful flower. This flower is so appreciated that the artist enclosed it in a gold varnished medallion frame, which shows the perfect blending of old rose and pretty greens. The light and dark tans in the background, in shaded effect, make it a pronounced success.

Artistic ability is cleverly worked out in the floral border, which illustrates the flowers hanging from a leafy bough. Secure this pattern for your parlor, lounging room or reception hall, and you have an A1 wall treatment. A big saving at our price. When an artist selects a color range for his palette, he has in mind the completed picture. He groups his shadows to the right, his high lights to the left, and his middle tones are left for the center. This paper makes a perfect setting for any wall, as it will harmonize with the wood-work, furniture, rugs, pictures, etc. It is an exclusive parlor paper that shows high class designing. A corduroy velvet stripe edged in old gold and bronze stands out in perfect contrast against the rich golden brown in the cloth effect background. A tiny figure in bronze green divides the stripe and lends elegance and repose.

The velvet tones in the 18-inch border give it distinction. Ribbon streamers tied in a lover's knot, and caught up with a single American beauty rose is very artistic. A gold guimpe band at the head of the border is very rich, associated with the golden browns and silken tones of the red velvet roses, making it a choice selection.

The colors blend from a deep brown into a very refined ceiling, showing an air-brushed effect. This border can be hung in the usual way, or cut out, as shown in the illustration. Paper of this quality and tone is always appreciated by people of culture and education. Retail value 25c per double roll.

A rich antique brocaded silk damask parlor paper that bids fair to be a conspicuous seller. The soft warm natural gray tones in the background covered with tiny spots produces that silk effect. A spray of moss roses in varnished gold, embellished with a touch of green and bronze, stands out in bold relief. The leaves in the shadow ground are outlined in gold, which, by the way, is a feature of one of the newest creations shown this season.

A pretty color scheme can be effected by using soft hangings of delicate pink or old rose with this paper.

The 9-inch border is quite pleasing. Rose bushes in varnished gold are shown in the foreground, while off in the distance a woodland scene is noted. The gray skies peeping through gives this paper that natural, restful influence. This is a paper of rare charm and quality. Used exclusively for parlor treatment. Make your living room cozy and inviting by the use of this richly designed paper. A cloth over-print covers the light tan background, while an art and crafts design gives it life and color. The shadow of trees peeping through produces a natural effect. Varnished gold blends well with the green and old rose, and makes this pattern a valuable choice as well as a big seller.

The design in the 18 inch border is carried out on a larger scale than in the wall design. The colors blend from a deep rich color, into a light dreamy ceiling.

Everyone that enters your home will admire your good taste in selecting this richly designed hanging. The colors are soft and pleasing, and blend well with oak woodwork or any of the natural woods.

This pattern will be found a splendid choice. It does not intrude itself, but takes the place of the out-of-door atmosphere, bringing it in the home and forming a pleasing background. The scenic effect shows a winding path in the river, with trees growing on either side. The clear blue sky shining overhead reflects its beauty in the waters. Varnished gold completes the frame in the picture and brings out the nut brown color and pretty tans to greater perfection.

The soft, mellow glow in the 18-inch border, mingling with the warm tans and rich browns, make this selection a big seller. The design in the ceiling, as well as the color tones, are very good. For dining rooms, halls, restaurants or ice-cream parlors, this pattern will be found very appropriate.

The other day a promising young man stepped inside our display room. After glancing around at all the papers he turned fondly to this one and said, "How beautiful! Just the one for my mother's room." This remark so impressed me, that I want to echo his sentiments to every young man and woman interested in home building. From time immemorial, a blue room has always been held as the pride and ambition of young women. This beautiful pale blue embossed silk paper makes the background of a stunning color scheme. The satin stripe, as well as the odd design, worked out in a rich varnished gold, gives it a pronounced value. A white mottled effect gives it purity.

A hand-brushed air effect is shown in the 9-inch border. The blue gradually blends into a pure white ceiling. A unique design is shown in varnished gold, with a slight touch of sky blue. This satin stripe is pure white, which wins for it immense popularity.

If the wood finish of your room is a delicate blue, or an ivory white color, you have the foundation of a charming color scheme. Pale blue silk curtain over ivory white, gives it that exquisite daintiness that must be admired and appreciated.

For a music room, guest room, or parlor, you will find nothing as distinctive and refined as this quality. People of taste appreciate the advantages of getting high class decorative papers at our money-saving prices. This quality paper would sell elsewhere at 30c.

The old English idea of bringing into the home the hues of Nature is beautifully expressed in this highly artistic Gold embossed pattern. A soft mauve shade covers the entire background, and brings out the natural greens and delicately shaded pinks in the rose pattern. Being a pressed paper, it gives the roses a hand-painted, raised effect. Varnished gold traces the leafy edges and gives the scroll design that graceful elegance that makes it a high-class, exclusive parlor decoration.

You can form no definite idea of the beauty shown in the 18-inch border. It will have to be seen on your wall in order to be appreciated. A crown of American beauty roses, suspended from a gold scroll, wins for it a home in the hearts of those who love refinement and culture.

Have you ever crossed the threshold of a delft blue varnished tile kitchen? If so, weren't you impressed with the absolute cleanliness, the spotless purity that prevailed? This pattern will have the same effect. Now, more than ever, women all over the country are waking up to the fact that thought and consideration for the kitchen is just as important as for the parlor. This pattern produces that clean, airy, cheerful atmosphere, and will be found especially attractive for the bathroom or vestibule.

A pretty Holland scene is shown in the 6 inch border. It shows the peaceful homes of the fishermen, the tall trees that overshadow them, the old historical windmill, and the sailboats out at sea. A wide stretch across the country makes this an interesting and fascinating choice.

The pattern is an imitation of a Mosaic hollow tile and will be found an excellent quality. No housekeeper need feel the embarassment of soiled walls, when she can secure a wall covering at this low price. It is a wall covering that can be easily cleaned when necessary, making it sanitary and pleasing as well.

A coat of Batavia Damar varnish applied over this paper will make it almost indestructible.

An Egyptian design alternating with a mottled effect, makes this number one of the biggest and best sellers on the market. You can hardly enter a home in the country to-day, that does not boast of its varnished tile bathroom and kitchen. It is for this reason we picked out this clean, snappy pattern. We knew it would please our customers and that is our greatest ambition.

An inland water scene is shown in the 6 inch scenic border, which gives it added beauty and interest.

A narrow edge divides the border from the sidewall, giving the appearance of set-in blocks of hollow tile in miniature effect.

The light colored ceiling has a little dotted design which is very dainty.

The thrifty housekeeper will see the economy of securing this pattern, as it is out of the ordinary in design, and quality.

It may be washed with water and soap when soiled, and will always retain its bright, fresh appearance.

Alternating stripes of tan edged with tiny rosebuds harmonize beautifully with the lighter stripes and produce one of the best wall treatments for bedroom or guest room.

In the days of Tennyson's youth, with the coming of Spring, young men's fancy turned to thoughts of love; now it turns to wall paper as well. To the young couple planning their home, this paper will certainly make its strongest appeal. The colors are soft and pretty and considered very artistic. The semi-chambray effect in the background brings out that little floral spray, while the two-toned stripe gives it character and style.

The pretty cut-out border, with its spray of "La France" roses and green leaves, captivates the attention of every man and woman who has the proper sense of color. This number makes an ideal treatment for the parlor, sleeping room or guest room. For quality, designing and color tone, this paper is superior to many others sold elsewhere at double the price.

A guest arriving at a home, tired and wearied from travel, will soon awaken to the glories of his visit if shown to a room whose walls are covered with this paper. We can suggest nothing more inviting, or more exquisite than this quality. It shows refinement in line and color. A cloth over-print gives it a rich, silvery gray tint. A touch of lavender in tiny rose-buds forms the stripe and blends well with the gray, giving it dignity and refinement.

Full blown roses, shaded a pretty lavender with green leaves thrown carelessly together, form the cut-out border. The 3-inch band at the base gives it the final finishing touch, and classes it as a paper of superior worth and quality. Paper like this shows excellent taste, and will be admired and praised by everyone who sees it. A big value at our price. Worth at least 25c. The border is cut out ready to hang.

The woman who understands the psychology of colors knows that certain tones are stimulating or depressing. In this paper we have the gray of the distant hills, which will prove restful and soothing as well as decorative. The background is a Chambray effect in a plaid design. A brown stripe outlined in green, contrasts prettily with the white stripe, giving it grace and dignity.

There is a spiritual significance about the peonies in the cut-out 9-inch border. A noted writer has said that the full-opened flower of a single peony is like the countenance of a living creature. The peonies are exquisite in coloring, and appear as if the sun's rays had faded them from a deep pink into a pale white. The foliage in the leaves and stems blend delicately. An ideal decoration for the guest room, sleeping room, or boudoir. On entering a room papered with this covering, one feels completely lost in silent admiration. This 9-inch border is cut out as illustrated, ready to hang. A dainty choice, worth at least 25c per double roll.

The pretty schemes and charming effects in refined homes are only secured by the use of proper color treatment. For the parlor and front sleeping room we can suggest nothing that will prove more inviting or dainty than this decoration. A light brown stripe alternating with a white stripe is very distinctive against a buff background in chambray.

Peonies in their natural state never appeared more perfect than they do in the 9-inch cut-out border. The green stems are caught in the lattice work in a pretty, careless way, leaving the flowers to adjust themselves at will. The coloring is exquisitely shaded from a pretty pink into a delicate white. The whole arrangement is good. We predict for it unusual sale. Women of taste will see in this beautiful creation the possibilities of making their rooms "a thing of beauty."

Interior decorators are very enthusiastic about this two-toned paper, and are using it in homes of the better sort. It denotes high-class designing, and harmonizes well with oak wood-work, or in fact, any of the natural woods. It is one of the newest shades shown this season, and may be used as an independent sidewall. The soft shades of chocolate brown, with that pin dot sprinkle of light tan playing over the surface, make the gold beaded stripe more distinctive.

The cut-out border will grip the attention of everyone that sees it. The artist has cleverly shown the rose climbing from a pergola, giving it that natural, rustic appearance. The petals of the large open roses are gently faded with the sun's rays and shades, from light tan to nut brown. A varnished gold edges the petals and leaves, and brings out the beautiful autumnal colors.

You cannot fully appreciate the beauty of this border until you put it on your wall. Cut-out borders are considered the very latest. If you wish to be up-to-date you must have at least one room in your home papered with this quality. It gives that added interest to the home, and reflects the personality of the owner. A welcome choice, worth at least 30c per double roll.

The soft, restful, velvety tones in this paper, as well as dignified lines, make it a pleasing choice for parlor, library or living room. A rich green forms the background, while a two-toned stripe with a little gold beading gives it a pronounced value.

The cut-out border is especially attractive. The autumn flowers change from golden yellow to dark brown. Varnished gold edges the flowers, producing that rich elegance found only in papers of this stamp and character.

Paper like this is the alpha and omega of successful decoration. They are the beginning and the end. This paper will find its way into the best furnished homes, homes where thought is given to the color scheme, and the relation of one room to another. The 18 inch cut-out border is a "thing of beauty." A cloth effect over-print gives it the appearance of a slight mist. The large, beautiful sprays of roses appear fluttering in the breeze, as if blown by a gentle wind. They are so natural, you almost feel tempted to take one.

Wall paper is the foundation stone upon which all the elements of successful home furnishings are constructed.

If your wall treatment is correct, your other furnishings will be. We consider this number very choice, and know it will be welcomed in every American home, whether it is the village cottage, the mountain bungalow, or the city palatial residence.

A miniature frame in a natural wood color shines out from a mica background. A tiny figure in the center of this frame proves very unique and interesting.

The colors of the fields and woods, the green foliage, and browns of tree trunks, are charmingly shown in the border. The gray of the morning is seen peeping through the leaves, while a beading edges them, giving them that drooping appearance, as if wet with the moisture of the morning's dew.

The Autumn colors in warm tans, wood browns, and rich greens, make this a big favorite for the parlor, library, the much used living room or the highly prized dining room.

This border has what is known as a base—that is, a small decoration drawn at the bottom of the border. You will find greater economy in buying these borders from us, as the average seller asks one price for the top of the border and another price for the bottom or base when cut out.

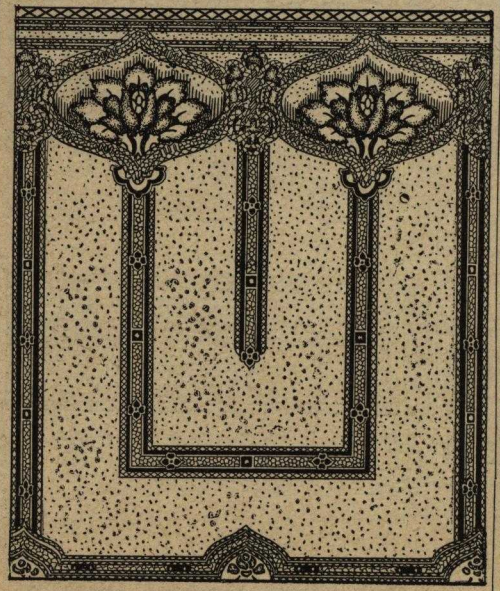
Embossed Gold Border and Divider or Edger



The above illustration shows one of the unique and striking panel effects which can be obtained by using this crown border and edger decoration over plain oatmeal papers. It is a most perfect and complete decorative combination scheme. The border and edger are of the same combination of colors, which are green, red, bronze gold, and yellow gold, on a buff ground. This combination will harmonize perfectly with any tan, brown, green, or red paper. 2P335 is easily cut out, and the extension at the bottom makes a fine finish above the base-board, as shown in cut. For panelling and crown effects, use 2P345 in connection. The border is 18 inches wide, and the edger, or divider, 2¾ inches wide, both on the same heavy embossed stock. You can hardly imagine the lovely effects these decorations bring out.
